STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 12138) making supplemental appropriations for the fiscal year ending June 30, 1957, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon and recommended in the accompanying conference report as to each of such amendments, namely:

CHAPTER I
DEPARTMENT OF AGRICULTURE

Amendment No. 1: Inserts heading.

Amendment No. 2: Strikes out language proposed by the Senate authorizing use of not to exceed \$200,261 of unobligated balances of 1956 funds to reimburse individuals and organizations for expenses incurred in the control and eradication of the Khapra beetle.

Amendment No. 3: Appropriates \$2,500,000 for eradication of the Mediterranean fruitfly as proposed by the Senate. The conferees expect that Federal expenditures for the program to eradicate the Mediterranean fruitfly will be fully matched by any state affected.

Amendment No. 4: Reported in disagreement. It is intended that the amount allowed will cover the full cost of the project.

CHAPTER II
DEPARTMENT OF COMMERCE

Amendment No. 5: Restores language proposed by the House relative to the costs of maintenance and operation of the Jones Point Bridge.

INDEPENDENT OFFICE

Amendment No. 6: Appropriates \$300,000 for the Advisory Committee on Weather Control as proposed by the Senate.

CHAPTER III
CENTRAL INTELLIGENCE AGENCY

The conference committee approves of \$49,000,000, the amount allowed by the House of Representatives and the Senate for construction of the headquarters for the Central Intelligence Agency. The committee directs that the Agency make every effort to construct a building to accommodate all of its headquarters personnel within the sum provided, and directs that none of these funds be spent in such a way as to make it necessary for the Congress to authorize additional funds at a later date. The committee further directs that none of these funds

be obligated or spent until the Director of Central Intelligence has obtained from the appropriate local authorities written commitments for the construction of roads, sewage treatment plants, public transport, and other local facilities which are deemed necessary to serve the site selected.

DEPARTMENT OF DEFENSE

DEPARTMENT OF THE ARMY

MAINTENANCE AND OPERATIONS

Amendment No. 7: Appropriates \$88,000,000 instead of \$88,369,170 as provided by the Senate. The managers desire to emphasize their belief that the reductions made in deutschemark support are not justified and that more satisfactory arrangements should be made with the Republic of Germany for the support of our troops stationed in that country.

MILITARY CONSTRUCTION, ARMY

Amendment No. 8: Inserts statutory reference.

Amendment No. 9: Provides \$202,000,000 to be derived by transfer from the Army stock fund as proposed by the Senate instead of \$193,000,000 as proposed by the House. The increase of \$9,000,000 is to provide for the additional projects listed in the report of the Senate.

REDUCTION IN APPROPRIATION

ARMY STOCK FUND

Amendment No. 10: Provides for covering reduction of currently available funds into the Treasury by not later than December 31, 1956, instead of March 31, 1957, as proposed by the Senate and immediately upon approval of the act as proposed by the House.

DEPARTMENT OF THE NAVY

MILITARY CONSTRUCTION, NAVY

Amendment No. 11: Inserts statutory reference.

Amendment No. 12: Appropriates \$400,000,000 as proposed by the House instead of \$418,000,000 as proposed by the Senate. The Committee on conference is in agreement that the following projects shall be added to the program as approved by the House and contained in House Report No. 2638:

Amendment No. 15: Provides \$1,228,000,000 as proposed by the House instead of \$1,238,000,000 as proposed by the Senate. The projects listed in House Report No. 2638 and Senate Report No. 2580 are approved in the amounts stated with the exception of Dublin, Ga.; Hobbs, N. Mex.; and Mitchell, S. Dak. The committee of conference agrees to defer approval of appropriations for the proposed bases at Dublin, Ga.; Hobbs, N. Mex.; and Mitchell, S. Dak., in the 1957 program. However, the Air Force is directed to study and survey its needs to determine whether or not such bases, or any one of them, are required for the Air Force program. Should the study reveal that these bases are necessary, the committee of conference agrees that the Air Force make appropriate requests for funds to the Congress through reprogramming or otherwise as determined by the Secretary of the Air Force. The committee of conference expects that the Secretary of the Air Force will report his findings, if possible, by January 31, 1957, to the Appropriations Committees of Congress.

Amendment No. 16: Reported in disagreement.

GENERAL PROVISIONS

Amendment No. 17: Inserts statutory reference.

Amendments Nos. 18 and 19: Delete provision of the House exempting unit cost limitations for three units of family quarters at the United States Naval Observatory, Washington, D. C.

Amendment No. 20: Strikes out language proposed by the House and stricken by the Senate and inserts language proposed by the Senate with a clarifying amendment. The committee on conference is agreed that the intent of the House provision relating to the apportionment of funds as expressed in the House report on the bill be carried out and reiterates the statements contained in that report. Regarding funds appropriated for "Reserve facilities, Department of the Air Force," the committee on conference is agreed that the amount to be applied for such facilities shall be in the same proportion as the total amount appropriated is to the total approved program.

Amendment No. 21: Deletes provision of the Senate restricting the use of funds appropriated for "Military construction."

Amendment No. 22: Reported in disagreement.

CHAPTER I
DEPARTMENT OF AGRICULTURE
AGRICULTURAL RESEARCH SERVICE

PLANT AND ANIMAL DISEASE AND PEST CONTROL

The committee recommendation authorizes the Department to utilize, not to exceed \$200,261 of the unobligated balances from 1956 under this head, to reimburse firms in the grain industry for direct fumigation costs incurred for Khapra beetle eradication prior to the stepped-up eradication program authorized in the Second Supplemental Appropriation Act, 1956.

The language provision recommended by the committee follows:

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

Plant and animal disease and pest control: Not to exceed \$200,261 of the unobligated balances of funds appropriated under this head for the fiscal year 1956 shall be available to reimburse persons, firms, and organizations for the direct expenses heretofore incurred by them for fumigation of premises in the control and eradication of the Khapra beetle.

ANIMAL DISEASE LABORATORY FACILITIES

The committee recommends the following item, contained in Senate Document 136:

ANIMAL DISEASE LABORATORY FACILITIES

For an additional amount for "Animal disease laboratory facilities," for establishment of such facilities, including construction and alteration of buildings and acquisition of necessary land by purchase, donation, or exchange, \$18,915,000, to remain available until expended.

The budget estimate for \$18,915,000, to establish the animal disease laboratory facilities, is approved by the committee with the understanding that there be no cost to the Government for acquisition of land required for the construction and operation of these facilities.

COMMISSION ON INCREASED INDUSTRIAL USE OF AGRICULTURAL PRODUCTS

The committee has not approved the budget estimate of \$150,000 in Senate Document 136, to pay expenses of this Commission. The committee believes that action on the request for appropriation for the item should follow the appointment of Commission members by the President, and their confirmation by the Senate.

CHAPTER II
DEPARTMENT OF COMMERCE AND RELATED AGENCIES
BUREAU OF PUBLIC ROADS

Jones Point Bridge.—The committee recommends the appropriation of \$14,325,000, the amount of the House bill and the budget estimate. However, the committee struck the following proviso in the House bill:
: Provided further, That this paragraph shall be effective only upon the final consummation of agreements for the maintenance and operation of the bridge and approaches by the States of Virginia and Maryland.

The authorizing legislation bars construction until the execution of maintenance agreements.

ADVISORY COMMITTEE ON WEATHER CONTROL

Salaries and expenses.—The committee recommends the appropriation of \$300,000, a reduction of \$50,000 from the budget estimate and an increase of \$300,000 over the House bill. The amount provided is \$25,000 over the amount appropriated for fiscal year 1956. The President signed the bill, extending the life of the Advisory Committee on Weather Control for another 2 years, on July 9, 1956.

CENTRAL INTELLIGENCE AGENCY

The committee approves \$49,000,000, the budget estimate and the amount allowed by the House of Representatives for construction of the headquarters for the Central Intelligence Agency. The committee directs that the Agency shall plan to house all headquarters personnel of the Agency within the sum provided. The committee further directs that none of these funds shall be obligated or spent until the Chairman of the National Capital Planning Commission shall certify that written commitments have been obtained from the appropriate local authorities for the financing and construction of roads, sewerage treatment plants, public transport, and other local facilities which are deemed necessary by the Commission to serve the site selected.

1957 law-----	2,967,057,000
1957 supplemental request-----	88,369,170
1957 Senate committee-----	88,369,170

The committee recommends an additional sum of \$88,369,170 which is necessary because of reductions in the deutschemark support for United States forces and facilities in Germany. On June 7, 1956 an agreement was reached with the Republic of Germany providing United States forces with deutschemark support for the 1-year period ending May 5, 1957. The amount provided was \$88,369,170 less than the amount available to maintain Army forces and facilities in Germany from July 1, 1956, through May 5, 1957; and about one-half of the amount provided in the previous year. The committee desires to emphasize its belief that the reductions made are not justified and that more satisfactory arrangements should be made with the Republic of Germany for the support of our troops stationed in that country.

1957 estimate-----	\$193,000,000 by transfer
House action-----	\$193,000,000 by transfer
Senate committee-----	\$202,000,000 by transfer

The committee approves an amount of \$202,000,000 for "Military construction, Army," to be derived by transfer from the Army stock fund. This is \$9,000,000 above the estimate and amount allowed by the House.

The Senate committee has approved a total program for execution of \$687,729,560 or \$9,040,000 above the House-approved program of \$678,689,560. This includes new authorization as approved by the

House in the amount of \$340,689,560; prior authorization previously approved and funded in the amount of \$338,000,000 and the following projects not included by the House:

Operational facilities, Korea-----	\$6,000,000

Housing, Redstone Arsenal, Ala-----	900,000
Nuclear heating and powerplant in Alaska-----	620,000
Total-----	9,040,000

Funds to be available for implementation of the program in the amount of \$506,000,000 include \$304,000,000 carried over from the fiscal year 1956 and \$202,000,000 to be derived by transfer from the Army stock fund.

A detailed discussion of the items added by the Senate committee follows.

IMPROVED LIVING AND OPERATIONAL FACILITIES, KOREA

The committee has approved for inclusion in the program \$6 million for improved living and operational facilities in Korea, such sum to be absorbed within the total funding supplied. The Department of the Army has indicated that subsequent to budget submissions additional requirements have developed in Korea. Under present conditions, troops in Korea are living in and operating from substandard facilities. The health of the command is adversely affected to a serious degree by the inadequacy of the water-supply systems in many areas, and by the lack of adequate sewage systems, necessitating the continued use of field-type latrines at fixed installations. Messhalls, dayrooms, barracks, and operational facilities require extensive improvement in the interest of the health, morale, and combat readiness of the command.

YUMA TEST STATION

The committee recommends that this be included in the proposed construction program, to be absorbed in the funding allowed, \$1,520,000 for the construction of facilities at the Yuma Test Station.

The Yuma Test Station is the site of the Army's only Research and Development Test Center devoted exclusively to testing of supplies and equipment under hot weather or desert conditions. There is no other army installation capable of supporting the hot weather and desert research operations now conducted there. The research and development activities conducted at Yuma Test Station are of critical importance inasmuch as they are designed to insure the excellence of the Army's weapons and equipment under desert conditions which can be anticipated in numerous possible theaters of warfare. The Department presently has some \$7,726,143 invested in facilities at this station and in view of advantages which pertain to the station, desires to expand the facilities on a permanent basis.

FAMILY HOUSING, REDSTONE ARSENAL

The committee has approved for inclusion in the program \$900,000 for officer housing at this installation, such sum to be absorbed within the total funding supplied. The Department of the Army has indicated that this requirement cannot be met under the provisions of

Approved For Release 2003/04/17 : CIA-RDP80-01370R000500060003-8

Public Law 345, 84th Congress, due to the statutory cost limitation imposed for Capehart housing. Under this law, the Department plans to construct 670 units of family housing for junior grade officers and enlisted men. Recently there has been a sharp increase in the number of personnel stationed at the installation. The Department states that there is insufficient existing and programmed onpost housing to accomodate these personnel and the local community cannot absorb the housing deficit.

NUCLEAR HEATING AND POWERPLANT

The committee recommends that there be included in the proposed construction program, to be absorbed in the funding allowed, \$1,120,-000, an increase of \$620,000 over the amount of \$500,000 allowed by the House.

The 1957 budget estimate included \$4,127,000 for the construction of a nuclear heating and powerplant in Alaska, which will be similar to the prototype plant presently under construction at Fort Belvoir, Va. The House deleted funds for construction but allowed \$500,000 for designed purposes. The Department of the Army has indicated that the design of the plant will require 11 to 12 months to complete and that it considers that \$500,000 is adequate for design purposes. The Army advises, however, that a delay of a year will result unless restoration in part of the funds is approved due to the short construction season, and the long lead time required to produce certain equipment and material. Restoration of \$620,000 of the funds disallowed by the House is therefore recommended. Of this amount \$435,000 is for procurement of long lead items, \$75,000 is for transportation and handling charges and \$110,000 is for contingencies.

SANDIA BASE, ALBUQUERQUE, N. MEX.

The committee believes that our defensive posture can best be strengthened by continued emphasis on the moral and religious factors. The chapel at Sandia Base, Albuquerque, N. Mex., was authorized in Public Law 161, 84th Congress, and funding was provided in Public Law 219, 84th Congress. Construction was deferred in the 1956 program for subsequent execution. The Senate committee recommends that funds be made available during fiscal 1957 for this worthwhile construction.

ARMY STOCK FUND

In lieu of the House recommendation, the committee recommends the following amendment relative to the rescission of funds in the Army stock fund:

The amount available in the Army Stock Fund is hereby reduced by \$357,000,000 such amount to be covered into the Treasury no later than March 31, 1957.

The Senate committee amendment will permit the gradual reduction of working capital funds in the Army stock fund in the total of \$357,000,000 rather than an immediate reduction.

DEPARTMENT OF THE NAVY

MILITARY CONSTRUCTION, NAVY

1957 estimate.....	\$400,000,000
House action.....	¹ 400,000,000
Senate committee.....	¹ 418,000,000

¹ Cash and transfer authority.

The Senate committee considered, for the Department of the Navy, an appropriation request totaling \$400,000,000 in cash and transfer authority, the budget estimate. The committee approves an increase in the appropriation of \$18,000,000, making a total appropriation of \$183,000,000 plus \$200,000,000 in transfer from the "Navy stock fund" and \$35,000,000 in transfer from the "Marine Corps stock fund."

The committee approves a military public-works program for 1957 totaling \$645,731,700, as requested by the Department of the Navy. This is an amount \$104,413,000 greater than the total program of \$541,318,700 approved by the House committee for 1957, including prior-year programs not initiated. Testimony by the Department of the Navy indicated that funding approval for projects in the amount of \$645,731,700 is necessary to provide the flexibility needed for vigorous, efficient prosecution of its military public-works program.

The House committee considered that the program submitted by the Department of the Navy allowed too large a differential, in comparison with available funds, to provide a definite and positive program. Using as a basis for action a military construction priority list prepared by the Department, the House committee approved a funding program for a lesser amount. The Senate committee supports the program of \$645,731,700.

This \$645,731,700 program approved by the Senate committee is identical with the \$636,764,700 construction priority list considered by the House committee, except for modifications to take into account subsequent congressional authorizations, deletions, and additional funding approval.

These are as follows:

Original program.....	\$636,764,700
Deduct projects not authorized.....	4,033,000
Addition made by House.....	5,000,000
Addition made by Senate.....	8,000,000

Program approved by Senate committee..... 645,731,700

As indicated above, the Senate committee program for fiscal 1957 of \$645,731,700 is \$104,413,000 greater than the amount of \$541,318,700 provided by the House. This is arrived at as follows:

Program provided by House.....	\$541,318,700
Deduct project not authorized.....	33,000

Adjusted program..... 541,285,700

Additions recommended by Senate committee:	
(1) Classified project.....	8,000,000
(2) 1957 program not included by House.....	69,945,000
(3) 1956 and prior-year projects not included by House.....	26,501,000

Total program approved by Senate committee..... 645,731,700

The projects indicated as approved for the program in (2) and (3), above, are as follows:

UNITED STATES CONSTRUCTION IN SPAIN

At the time the base construction program in Spain was first under consideration, the Congress was advised that the cost would be approximately 80 percent of comparable construction costs in the United States. It now develops that the construction costs are 120 percent of comparable costs in the United States or approximately a 50-percent increase in costs over the original estimates. The committee views with alarm this undesirable development and directs the Department to earnestly apply themselves to hold these costs down.

DEPARTMENT OF THE AIR FORCE

OPERATION AND MAINTENANCE

1956 appropriation-----	\$3,597,496,570
1957 estimate-----	3,786,000,000
1957 law-----	3,724,185,000
1957 supplemental request-----	18,626,130
1957 Senate committee-----	18,626,130

The committee recommends an additional amount of \$18,626,130 which is necessary because of reductions in the deutschemark support for United States forces and facilities in Germany. The amount provided by the June 7, 1956, agreement with the Republic of Germany was \$18,626,130 less than the amount available to maintain Air Force personnel and facilities in Germany from July 1, 1956, through May 5, 1957. As in the case of the Army, the committee emphasizes that a more satisfactory arrangement should be carried out with the Republic of Germany for the support of our troops stationed in that country.

MILITARY CONSTRUCTION, AIR FORCE

1957 estimate (plus \$357 million transfer authority)-----	\$871,000,000
1957 House action-----	1,228,000,000
Senate committee-----	1,238,000,000

The committee approves \$1,238 million of appropriations. This is an amount \$10 million greater than the House bill and \$367 million over the budget estimate.

The \$1,238 million recommended by the committee is to be applied on a priority basis against a program of \$1,657,135,000, that has been approved by the committee. This approved program amount is made up of projects totaling \$439,173,000 that the committee has cleared previously in fiscal year 1956 and prior years, which the Air Force could not finance within the present fund availability, and projects totaling \$1,217,962,000 not approved previously by the committee. Of this latter amount the great majority of the projects are included

in the fiscal year 1957 authorization program. The remainder has been previously authorized but not previously approved for funding.

As brought out during the committee hearings, the Air Force initially requested a construction program in fiscal year 1957 of \$2,173,700,000. The House committee directed the Air Force to review this program for the purpose of bringing the overall construction program more nearly into line with the request for appropriation of \$1,228 million. In complying with this request, the Air Force reduced the program to \$1,611,878,000, or a reduction of \$561,822,000. It was from the reduced program total that the House made reductions of \$16,896,000 and approved a fiscal year 1957 construction program for the Air Force of \$1,594,982,000, including amounts anticipated for reimbursements and pesetas.

The program amount as approved by the committee is \$62,153,000 over the amount that was approved by the House. The added amounts are as follows:

Minneapolis-St. Paul International Airport	\$3,015,000
Beale Air Force Base	3,832,000
Washington National Airport	275,000
Offutt Air Force Base	1,368,000
AFOAT	341,000
Wheelus Air Force Base	250,000
Edwards Air Force Base	2,964,000
Richard Bong Air Force Base	21,784,000
Air Force Academy	5,433,000
Hobbs, N. Mex.	6,547,000
Dublin, Ga.	6,478,000
Mitchell, S. Dak.	6,374,000
Holloman Air Force Base	1,000,000
Tinker Air Force Base	2,492,000
Total	62,153,000

The committee based its action of adding the above items to fiscal year 1957 construction program on the following information:

Minneapolis-St. Paul International Airport

The committee has added \$3,015,000 to the program total in order to provide funding for the necessary construction work at the Minneapolis-St. Paul International Airport. The necessary work includes extension of runways, aircraft shelters, a technical laboratory, and an engine buildup shop. These items were included in the 1957 funding request.

Beale Air Force Base

The amount of \$3,832,000 added by the committee consists of increases for four items: a primary runway, operational apron, hydrant fueling system and utilities, previously estimated to cost \$9,563,000. The revised current estimate based upon more recent information is \$13,395,000. The primary reason for the cost increase is the necessity to resite the runway complex to achieve optimum operational capability, in accordance with the base master plan.

Washington National Airport

The project added for the Washington National Airport in the amount of \$275,000 provides facilities for performance of electronic equipment maintenance. The facility is intended for joint utilization by the Department of the Air Force, the CAA, and the Coast Guard. Provision of this facility will implement an agreement between the

Secretary of the Air Force and the Secretary of Commerce made on December 1, 1955, in order to alleviate congested activities at Washington National Airport.

Offutt Air Force Base

The operational apron at Offutt Air Force Base in the amount of \$1,368,000 is required for parking of the tanker squadron. The squadron will be activated sooner than originally anticipated as a result of the earlier availability of the KC-135 tankers.

AFOAT I

This construction, estimated to cost \$341,000, will be at a classified location. The facility will house technical equipment to help perform a vital part of a classified mission. Construction of this facility was authorized in the fiscal year 1956 military construction program, but was not funded. During the reduction of the fiscal year 1957 construction program as directed by the House it was inadvertently omitted from the program, although an element of similar facilities was authorized in fiscal year 1957 and the two increments need to be constructed simultaneously.

Wheelus Air Force Base

The swimming pool at this tropical base, estimated to cost \$250,000, is required for recreational purposes. Swimming in the Mediterranean Sea at this location is frequently prohibited due to pollution of the waters and to the strong undertow. No other facility for swimming exists in the area.

Edwards Air Force Base

The special test track facility in the amount of \$2,964,000 added to the Edwards Air Force Base program is required for high-velocity precision testing of new high-performance aircraft, missiles, and special weapons. Substantial savings of money, equipment, and lives have been effected by conducting such tests on track-type facilities rather than in the air.

Richard Bong Air Force Base

The committee recommends that fiscal year 1957 program for this base be increased by \$21,784,000 to a new total of \$24,734,000. Testimony presented to the committee indicated an urgent need for the additional amount so that the Department could proceed in fiscal year 1957 with the construction of necessary facilities at this new air defense base.

Air Force Academy

The committee recommends that \$5,433,000 be added to the fiscal year 1957 program for the Air Academy. The Department of the Air Force had requested previously that the committee approve a request for funds in the amount of \$5,433,000 for necessary construction of supply facilities, an auto maintenance shop, auto storage (open), and a nonpotable water supply system. The committee approves this request by adding the construction to that already included in the fiscal year 1957 program for the Air Academy.

Hobbs Air Force Base

The authorization for Hobbs in the amount of \$6,547,000 was added to the fiscal year 1957 authorization bill too late for House consider-

ation in the review of the construction program. The committee recommends that this construction be included in the fiscal year 1957 program for the SAC dispersal program.

Dublin Air Force Base

The authorization for Dublin in the amount of \$6,478,000 was added to the fiscal year 1957 authorization bill too late for House consideration in the review of the construction program. The committee recommends that this construction be included in the fiscal year 1957 program for the SAC dispersal program.

Mitchell Air Force Base

The authorization for Mitchell in the amount of \$6,374,000 was also added to the fiscal year 1957 authorization bill too late for House consideration in the review of the construction program. The committee recommends that this construction be included in fiscal year 1957 program for the SAC dispersal program.

Holloman Air Force Base

The committee recommends the addition of \$1,000,000 to the program in order to provide for the construction of additional facilities to increase the water supply for Holloman Air Force Base including a dam across Eagle Creek estimated to cost \$350,000. The damming of Eagle Creek will provide the base complex with additional 500,000 gallons of water per day.

The amendment is as follows:

including \$1,000,000 for additional facilities to increase the water supply for Holloman Air Force Base.

Tinker Air Force Base

The committee recommends that \$2,492,000 be added to the program at Tinker Air Force Base for the construction of a new permanent hospital which is needed to replace the present temporary facility built during World War II. This is in addition to the \$3,-498,000 of other construction approved by the House at this base. If the permanent hospital were not approved in fiscal year 1957 program, \$100,000 must be spent to relocate parts of the present temporary building which is in the way of construction of a new proposed public highway. The highway will be located partially on land now a part of Tinker Air Force Base. After relocation, the temporary hospital, including the relocated portions of the hospital, would be subject to the tremors and noise disturbances occasioned by the road construction within 25 feet. If the new hospital were started in fiscal year 1957, the construction of that part of the road that would adversely affect the temporary hospital could be rescheduled so as not to begin until the permanent hospital is completed. In addition, \$100,000 would be saved.

AIRCRAFT WASHRACKS

The committee directs the Department of the Air Force to establish a program for the reclamation of washrack materials, such program to consist of tests to be conducted between the system using the stratification principle only and the system using the stratification, filtra-

tion, and absorption principles. Upon determination of which principle actually recovers the greater amount of washrack materials and is most economical to the Government in construction and operational savings, the Air Force shall adopt such system and report to the committee such action and the results of tests conducted by January 15, 1957.

LINCOLN, NEBR., HOSPITAL

The committee agrees with the House committee that a decision should be reached as soon as possible regarding the construction of a hospital at the Lincoln Air Force Base at Lincoln, Nebr. Hospital facilities are undoubtedly badly needed for the Air Force personnel at this base. Therefore, the committee urges that a final determination be made as to whether there should be conversion of the existing veterans hospital at Lincoln, Nebr., so that the necessary action may be taken immediately.

SECTION 307. QUARTERS FOR DEPUTY CHIEFS OF NAVAL OPERATIONS

Language limiting funds for the construction of units for quarters for the Deputy Chiefs of Naval Operations was deleted from the bill, as authority for these units was removed from the authorizing legislation.

GENERAL PROVISIONS

SECTION 309

The committee recommends that section 309 of the bill be amended as indicated:

~~Sec. 309. No funds appropriated for military construction shall be made available to the respective military departments in a manner so as to restrict the application of funds to any specific project or installation: Provided, That no reserve military appropriations herein shall be used for purposes other than for reserve purposes.~~

Sec. 309. In order to remedy the unsatisfactory progress being made in providing Reserve facilities, funds appropriated by this Act to the Air Force in the amount of \$40,000,000 shall be used solely for Reserve Public Works, military installations and facilities, and any funds appropriated for Reserve facilities by this or any other Act shall be used for the sole purpose for which they were appropriated.

This amendment will earmark for the use of the Reserve forces the programmed funds in the military construction program for Reserve construction.

SECTION 310

The committee recommends the inclusion of a new section in the bill as follows:

Sec. 310. None of the funds appropriated for military construction in this act shall be used for any purpose other than authorized programs as approved by the Congress for fiscal year 1957 and prior years.

Approved For Release 2003/04/17 : CIA-RDP80-01370R000500060003-8

SECTION 311. WHERRY ACT HOUSING

The committee recommends the inclusion of a new section to implement the provisions of section 420 of the Military Construction Act of 1956, which reads as follows:

Sec. 311. Not exceeding \$25,000,000 of the funds available to the Department of Defense and the Coast Guard for military construction may be used for capital expenditures other than for amortization of outstanding mortgages on any housing project constructed under title VIII of the National Housing Act as in effect prior to the Housing Amendments of 1955, in accordance with section 420 of the Military Construction Act of 1956: Provided, That the Secretary of Defense or his designee, in acquiring such housing projects, may make purchases subject to any existing mortgage or assume such mortgage.

CHAPTER V—GENERAL GOVERNMENT MATTERS

EXECUTIVE OFFICE OF THE PRESIDENT

BUREAU OF THE BUDGET

SALARIES AND EXPENSES

Supplemental estimate, 1957 (H. Doc. 400)-----	\$405, 000
House allowance-----	375, 000
Committee recommendation-----	400, 000

The committee recommends an increase of \$25,000, to provide a total amount of \$400,000 for strengthening of the staff of the Bureau of the Budget in budget and accounting responsibilities, which is \$5,000 below the supplemental estimate.

COMMISSION ON GOVERNMENT SECURITY

Supplemental estimate, 1957 (H. Doc. 403)-----	\$665, 000
House allowance-----	600, 000
Committee recommendation-----	665, 000

The committee recommends the full amount of the supplemental estimate of \$665,000 additional for the expenses of this Commission, which is an increase of \$65,000 over the House allowance.

PRESIDENT'S ADVISORY COMMISSION ON PRESIDENTIAL OFFICE SPACE

House action by floor amendment-----	\$50, 000
Committee recommendation-----	Deletion

Since no authorizing legislation as yet has been reported to the Congress for approval, the committee recommends the deletion of this item of appropriation, pending appropriate legislative authorization.

CHAPTER VI
INDEPENDENT OFFICES
FEDERAL COMMUNICATIONS COMMISSION

In order to conform to the additional amount of \$28,000 appropriated in the regular 1957 act for moving a secondary monitoring station from Twin Falls, Idaho, to Douglas, Ariz., the committee recommends an increase in the authorization for lands and structures from \$4,200 to \$18,300 and an increase in the limitation on the funds for expenses of travel from \$118,000 to \$118,650. The language inserted for this purpose will allow the Commission to proceed with this project.

GENERAL SERVICES ADMINISTRATION

ACQUISITION OF LAND, DISTRICT OF COLUMBIA

Supplemental estimate, 1957 (H. Doc. 403)	\$300,000
House allowance	150,000
Committee recommendation	300,000

An increase of \$150,000 is recommended by the committee, to provide the full supplemental estimate of \$300,000 for the acquisition of land and improvements in square 62 in the District of Columbia adjacent to the site of the proposed extension of the State Department Building. The committee is advised that, while \$150,000 is adequate for "initiating condemnation proceedings" as stated in the House report, the full estimate of \$300,000 is required to enable the filing of a declaration of taking and deposit in the Court of the amount estimated to be just compensation. The committee is further informed that delay in the acquisition of this property would allow further commercial development which would greatly enhance its value, and the ultimate cost to the Government would be correspondingly increased.

EXPENSES, GENERAL SUPPLY FUND

Supplemental estimate, 1957 (H. Doc. 403)	\$400,000
House allowance	200,000
Committee recommendation	400,000

The committee recommends an increase of \$200,000, to allow full restoration of the supplemental estimate of \$400,000, to provide during the fiscal year for the continued leasing of warehouse space at three locations until Government-owned space can be secured and occupied and present leases can be canceled.

ACQUISITION OF TIN

Supplemental estimate, 1957 (S. Doc. 136)	\$9,600,000
(Not considered by the House.)	
Committee recommendation	8,700,000

Approved For Release 2003/04/17 : CIA-RDP80-01370R000500060003-8
20 SUPPLEMENTAL APPROPRIATION BILL, 1957

The committee considered a supplemental estimate in Senate Document No. 136, requesting \$9,600,000 for the acquisition by General Services Administration of the tin produced at the Texas City smelter which is excess to the stockpile objective. Operation of the smelter was authorized by Public Law 608 to be continued until January 31, 1957, with an estimated production of 9,000 tons of tin. Revised estimates indicate that 5,385 tons of the tin can be absorbed under general stockpile funds, leaving 3,615 tons to be acquired under this appropriation, at a cost of \$8,700,000. Accordingly, the committee recommends the insertion of that item in the bill, which is a reduction of \$900,000 below the budget estimate.

CHAPTER VII
DEPARTMENT OF THE INTERIOR AND RELATED
AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

ACQUISITION OF LANDS FOR NATIONAL FORESTS

The committee recommends the allowance of the budget estimate of \$500,000 for the acquisition of forest lands within the boundaries of the Superior National Forest, Minn.

These funds will be used to acquire lands under the provisions of the act of June 22, 1948 (62 Stat. 570), as amended by the act of June 22, 1956 (Public Law 607, 84th Cong.).

ADMINISTRATIVE PROVISION

In the development of the recreational potential of the Mount Baker National Forest, Wash., it is necessary to construct a ski shelter. The cost of such a structure exceeds the limit of \$18,500, which is contained in the Department of the Interior and Related Agencies Appropriation Act, 1956.

The committee recommends the inclusion of the following provision to authorize the Forest Service to construct this facility at a cost not to exceed \$40,000:

ADMINISTRATIVE PROVISIONS

The Forest Service is hereby authorized to construct a ski shelter in the Mount Baker National Forest, Washington, at a cost of not to exceed \$40,000, without regard to any limitation on the cost of such a structure contained in any other Act.

INDEPENDENT OFFICES

NATIONAL MONUMENT COMMISSION

SALARIES AND EXPENSES

The committee recommends the allowance of \$25,000 for the expenses of the National Monument Commission. This Commission was created by the act of August 31, 1954 (Public Law 742, 83d Cong.). Its function is to secure plans and designs for a monument symbolizing the ideals of democracy.

The committee was impressed with the presentation made by the Commission, and is convinced that the Commission is not considering the construction of anything that can be described as "similar to the pyramids".

CHAPTER VIII DEPARTMENT OF LABOR

SALARIES AND EXPENSES, OFFICE OF THE SOLICITOR

1957 appropriation.....	\$2,021,000
Supplemental estimate.....	500,000
Committee recommendation.....	None

A supplemental estimate for \$500,000 was submitted to the Senate, to be derived from the highway trust fund created by section 209 of the Highway Revenue Act of 1956 to meet obligations incurred under the Federal-Aid Road Act attributable to Federal-aid highways.

Section 115 of the Federal-Aid Highway Act of 1956 requires the payment of wages at prevailing local rates, as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, for work performed on highway projects on the Interstate System, and requires that the Secretary shall consult with the highway department handling a project. The estimate presented called for an additional 50 employees in the wage determination unit, an increase of 119 percent over the current force of 42, to handle a workload of an additional 12,000 determinations, added to the 20,000 now handled.

The committee did not feel that the Department's request was properly substantiated and accordingly has denied the estimate in its entirety.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE PRESIDENT'S COMMITTEE ON EDUCATION BEYOND THE HIGH SCHOOL

There was requested for the administrative expenses of this committee, appointed by the President in April 1956, but for which there is no legislative authority, \$300,000, which request was denied in its entirety by the House because of the absence of such authority.

Legislation to authorize the appropriation of funds for the administrative expenses of this committee was introduced in the Senate only Yesterday, July 13.

Under the circumstances the Department did not appeal for restoration of the funds denied by the House, and this committee merely wishes to bring these developments to the attention of the Senate.

PUBLIC HEALTH SERVICE

DISEASE AND SANITATION INVESTIGATIONS AND CONTROL, TERRITORY OF ALASKA

1957 appropriation.....	\$1,145,000
Supplemental estimate.....	25,000
House allowance.....	0
Committee recommendation.....	25,000

The committee recommends \$25,000, the full amount requested, contingent upon enactment into law of H. R. 6376, the Alaska Mental Health Enabling Act.

This recommendation will provide funds to the Public Health Service for assistance to the Territorial department of health in the conduct of a comprehensive survey of the need for construction of mental health facilities, a survey required by provisions in the pending legislation preparatory to the construction of hospital and other facilities. The committee was assured that the survey would be completed prior to January 1, 1957.

CONSTRUCTION, MENTAL HEALTH FACILITIES, TERRITORY OF ALASKA

Supplemental estimate	\$500,000
House allowance	None
Committee recommendation	None

Under the terms of the pending Alaska Mental Health Enabling Act the construction of mental health facilities shall be in accordance with a comprehensive construction program, for the development of which survey funds were sought and are included in this bill.

The development of the comprehensive construction program is scheduled for completion by January 1, 1957, at which time the Public Health Service will be better equipped to present a request for construction funds.

REDUCTIONS IN APPROPRIATIONS

GRANTS TO STATES FOR POLIOMYELITIS VACCINATION

Under the provisions of the Poliomyelitis Vaccination Assistance Act of 1955 there was authorized to be appropriated such sums as are necessary to provide grants to assist States to meet the cost of poliomyelitis vaccination programs. The financial assistance though is limited by the aggregate amount of vaccine authorized to be provided—66,914,237 cubic centimeters. There has been appropriated heretofore a total of \$57,800,000, computed under then-current costs of vaccine. A recent reduction in the price of the vaccine to \$0.622 per cubic centimeter—the original price paid under this program was \$0.786 per cubic centimeter, later reduced to \$0.70 per cubic centimeter—will enable the accomplishment of the authorized program at a substantial reduction, and the \$4 million rescission adopted by the House and concurred in by this committee will not result in the curtailment of the program.

GRANTS FOR HOSPITAL CONSTRUCTION

Appropriations under this head for fiscal year 1948 and each succeeding year have been made "to remain available until expended," a phrase which has always been construed to mean that funds would be available for obligation and expenditure without fiscal-year limitation.

This committee in early June 1956 informally requested an interpretation from the General Accounting Office of the meaning of the cited phrase and was informally advised that the phrase made the funds available for obligation and expenditure without fiscal-year limitation.

This committee is somewhat surprised by a statement that everyone concerned viewed the funds as being available for a 2-year period

only in view of the abundantly clear language in each appropriation act.

While approving in the main the House desire to make these funds available for a 2-year period only—the exception being with respect to part G funds contained in the Supplemental Appropriation Act, 1955—this committee offers a substitute paragraph to accomplish the same purpose by the repeal of the words “to remain available until expended” in each of the last two appropriation acts, which repeal will make effective the 2-year limitation in the Hill-Burton Act.

The substitute paragraph contains a net effect of one change—to continue available out of the 1955 supplemental appropriation for part G projects, authorized under the Medical Facilities Survey and Construction Act of 1954 unobligated balances through June 30, 1957. This amendment of the House language will continue available for obligation and expenditure an estimated \$2.5 million unobligated part G funds for another year.

CHAPTER IX THE JUDICIARY

FEES OF JURORS AND COMMISSIONERS

The committee has approved the request contained in Senate Document 136 to transfer \$100,000 to the appropriation for "fees of jurors and commissioners" from the unobligated balance in the appropriation for "salaries of supporting personnel, 1956," in order to complete payments to jurors for services rendered during the 1956 fiscal year.

FUNDS APPROPRIATED TO THE PRESIDENT

For the President's special international program, the committee recommends a total appropriation of \$7,100,000 as compared to the House allowance of \$4,687,400 and the budget request of \$9,000,000. The \$7,100,000 is for allocation to the action agency as follows: \$1,500,000 to the Department of State, \$5,500,000 to the Department of Commerce, and \$100,000 to the United States Information Agency.

With respect to the sum recommended for expenditure by the State Department the committee disapproves the use of funds for jazz bands, ballet and dance groups and similar activities, and strongly urges that greater emphasis be placed in sponsoring choral groups and miscellaneous sports projects. The effectiveness of some of the musical groups heretofore sponsored appears questionable. The \$5,500,000 allocation to the Commerce Department is for international trade-fair participation which will include the expenditure of approximately \$1,200,000 for fairs behind the Iron Curtain. For the United States Information Agency, the committee recommends that \$100,000 be expended for trade-fair participation instead of \$312,600 the total sum estimated for promotion purposes and which was denied by the House.

CHAPTER X
TREASURY DEPARTMENT
FEDERAL FACILITIES CORPORATION FUND

The committee recommends an increase in the administrative expenses limitation from \$250,000 to \$425,000, which is a decrease of \$50,000 from the budget estimate contained in Senate Document 136. The committee recommendation is as follows:

FEDERAL FACILITIES CORPORATION FUND

The amount of the Corporation's funds made available under this head under title I of the Treasury-Post Office Appropriation Act, 1957, for administrative expenses of the Corporation, is increased from \$250,000 to \$425,000.

CHAPTER XI DISTRICT OF COLUMBIA

The committee recommends the additional sum of \$807,490 for the fiscal year 1957. This sum added to the House allowance of \$16,328,204 will provide a total appropriation of \$17,135,694. Distribution of the additional allowances are as follows:

1. *Department of General Administration, \$8,990.*—This sum will permit the employment of an accountant necessary to carry out the modern accounting system program being placed into effect to cope with the increased workload.

2. *Department of Occupations and Professions, \$3,200.*—The sum will permit the employment of a clerk-typist needed in processing of licenses to mechanics and others appearing before the Air-Conditioning and Refrigeration Board.

3. *Metropolitan Police, \$136,200.*—The additional sum will provide 28 man-years of employment of police privates and thereby allow the authorized strength of 2,500 on the force; also provide for the purchase of 6 additional vehicles needed as spares while a like number are undergoing repair.

4. *Courts, \$19,600.*—This sum will permit the employment of six additional employees vitally needed in Central Violations Bureau to process traffic violation notices.

5. *Department of Public Health, \$140,500.*—The additional sum will provide \$126,000 for salary increases of interns and resident physicians at the District of Columbia General Hospital, and \$14,500 for first-aid assistants instead of interns on emergency ambulances.

6. *National Guard, \$4,100.*—The additional sum will provide \$11,600, the budget estimate for compensation to the commanding general of the District of Columbia National Guard, instead of \$7,500 per annum the amount recommended by the House.

7. *Public building construction (capital outlay), \$494,900.*—The committee has approved the additional sum of \$25,000 to provide the total requested, \$215,000, for the purchase of a site in the Southwest redevelopment area for the Fire Department's repair shop and engine-house No. 7; also \$469,900 for the construction of a detention unit at the Children's Center, Laurel, Md.

CHAPTER XII
LEGISLATIVE BRANCH
SENATE

The Committee recommends that the following paragraph be added to the bill:

For payment to Jane R. Barkley, widow of Alben W. Barkley, late a Senator from the State of Kentucky, \$22,500.

CONTINGENT EXPENSES OF THE SENATE MISCELLANEOUS ITEMS

The committee has approved an item of \$84,000 for "Miscellaneous items, 1956," to be derived from the appropriation "Salaries, officers and employees."

JOINT COMMITTEE ON INAUGURAL CEREMONIES

The following paragraph has been added to the bill to provide funds for the inaugural ceremonies of the President and Vice President of the United States, January 21, 1957.

Joint Committee on Inaugural Ceremonies of 1957: For salaries and expenses of conducting the inaugural ceremonies of the President and Vice President of the United States, January 21, 1957, in accordance with such program as may be adopted by the joint committee authorized by concurrent resolution of the Senate and House of Representatives, \$215,000.

GOVERNMENT PRINTING OFFICE, REVOLVING FUND

Language has been added to the bill correcting a statute reference in the third paragraph under "Revolving fund" in the Legislative Branch Appropriation Act, 1957, as follows:

GOVERNMENT PRINTING OFFICE

REVOLVING FUND

The statute reference in the third paragraph under this head in the Legislative Branch Appropriation Act, 1957, is hereby amended to read "67 Stat. 330, August 1, 1953".
